CHAIRMAN'S MESSAGE

Today, a citizen opens a newspaper or opens any news portal – either on phone or on a tab or a computer, it is difficult not to find either of them not reporting at least one big news coverage on some crime area, related to cybercrimes. May be the growth of cybercrimes is, somewhat directly related to the growth of online transactions, namely UPI based transactions- especially, affecting the common man. What is more pertinent to note that, this kind of explosion is in UPI has started off during the past 4 to 5 years and the growth rate is one of the fastest in the world.

Most of the public who are regular users of UPI transactions were neither fully aware of the precautions while dealing online payment nor put any efforts to go through various awareness information bulletins issued by the competent authorities.

To build a safer ecosystem on Cyber front, Cyberabad Police has taken several rapid strides on Cyber Front in the year 2021-22. We have started educating public on various modes of cybercrimes, how to be more vigilant, how one should protect themselves from these operators, strengthened the Cyber Crimes section with more trained team members, several investments were made in terms of various tools as well as ensuring each of the police stations located in Cyberabad has a dedicated senior person at the PS to deal with Cyber Crimes -

Setting up of CoE to address the requirements of citizens, enterprise, government and the police department is one of the biggest initiatives taken up by SCSC & Cyberabad Police together, with active collaboration from the IT Industry. We have signed up impressive list of advisors – which includes very prominent people from the IT Industry, Academia, renowned research centres across the country like IIT-Kanpur, IIT Hyderabad, IIIT Hyderabad etc are going to add immense value to the offerings of CoE.

Likewise, to address the ever-growing traffic in Cyberabad, we have more than multiplied the no. of traffic police stations across Cyberabad, they have been provided with adequate manpower, equipment & other required resources. We further request citizens to come forward and share their suggestions to de-congest the IT corridor. In the days to come, Cyberabad Traffic will re-start the awareness sessions with Cab drivers, owners in the IT Corridor.

We urge the IT & ITeS employees, to start Carpool concept very actively – This is a sure way of creating less congestion on roads, environment friendly as well as pocket friendly.

SCSC has completed 16 years of valuable service to the society and SCSC is all about volunteering – in whatever way you feel you can contribute, become a volunteer and there is enough one can do to improve the society. If you can not contribute your time, at least start contributing through your company through CSR funds.

During Covid, SCSC & Cyberabad Police have done an incredible job and we have received lot of accolades from the public and we also want to thank all the Donors who have contributed immensely to the various causes.

Last but not the least, every citizen can become an active volunteer, if not anything else, please keep clicking the traffic violations and keep sending to us by whatsapp – so that the public becomes more disciplined while considering signal jumping, opposite way driving or triple riding etc can be controlled to that extent.

Sri. M. Stephen Raveendra, IPS
Commissioner of Police, Cyberabad
Chairman, SCSC

SECRETARY GENERAL'S MESSAGE

Year 2021-22, has been a year of convalescence for the IT & ITes industry employees, especially in terms of employees gradually returning to office sites and ease of covid fears etc. Since December 2021, it has been 3 steps forward and 2 steps backward when it comes to WFH to RTO – however, overall it has been a gradual and good progress till date.

SCSC continues to grow and expand and has been in the forefront to take up new initiatives for the Industry in particular and society at large. Two new horizontals have been established during the year namely “Employment” and “Education” to support the rural youth with opportunities and educate our school children.

Growth rate of Internet users in India, is one of the highest in the world - with This proliferation of Internet, smartphones led to a huge spike in usage of UPI transactions - a mind boggling number of 657 crores of UPI transactions, an 85% growth in volumes. According to ACI Worldwide, India accounted for the most real-time transactions in 2021. This was 6.5 times the transaction volumes for the USA, Canada, the UK, France, and Germany combined, and it is over three times that of China, which is second in the world. This has brought simultaneously whole lot of new challenges to the Police and common man as a whole - the growth in cyber crimes – more and more people are falling in to the net of cyber crimes – right from a common man to senior citizens to college students to IT employees – the list is endless, any one who uses a smartphone, any one who is using internet, are becoming victims of cyber crimes.

SCSC has been very proactively working with the IT Industry professionals and also with Cyberabad Cyber Crimes section simultaneously to bring in lot of research, processes and innovation – right from detection to identifying organized syndicates to any organized segments of the Cyber crimes perpetrators.

With this kind of proliferation of Cyber Crimes, the Police department has also ramped up huge numbers of Police personnel to Cyber Crimes and we have witnessed one of the highest ramp up of Police personnel in one department in a short span of just 3 to 4 months.

On it's part SCSC in collaboration with Cyberabad Police, Industry & Academia is setting up CoE – which would be one of it's kind in India - Telangana State Police Centre of excellence for Cyber Safety to support Enterprises, Citizens, Government and Law Enforcement agencies as a whole. This would become a very valuable institution to serve the society from & SCSC Cyberabad Police.

While this is only one part of the story, till Covid-19 was prevalent, SCSC has received excellent support from the IT & ITes Employees as well as from the industry. The Industry has whole heartedly supported almost every initiative of SCSC, employees support was even more overwhelming.

I would like to thank all the Office bearers, Executive Committee, Secretariat and all our member companies for extending fullest support to sustain all our initiatives and also take up new ones during the year.

Looking forward to another fruitful contribution from SCSC to the society as a whole.

INDEPENDENT AUDITORS' REPORT

To the Members of

SOCIETY FOR CYBERABAD SECURITY COUNCIL.

Report on the Financial Statements

We have audited the accompanying financial statements of Society for Cyberabad Security Council ("The Society"), which comprise the balance sheet as at 31st March 2022, the income and expenditure account of the society for the year then ended, and summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Society's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

We report that:

- a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
- b) In our opinion, proper books of accounts have been kept by the society so far as appears from our examination of such books.
- c) The Balance Sheet and the Income and Expenditure account dealt with by this report are in agreement with the books of accounts.
- d) In our opinion and to the best of our information and according to the explanations given to us, the said financial statements give a true and fair view:
 - I. in the case of the Balance Sheet, of the state of affairs of the society as at 31st March 2022 ; and
 - II. in the case of the Income and Expenditure account, of the excess of income over expenditure for the year ended on that date.

The office has large windows in the background and a large, curved, textured ceiling light fixture. The text 'CYBER SECURITY FORUM' is overlaid in large, bold, black capital letters across the center of the image.

CYBER SECURITY FORUM

CYBER SECURITY FORUM

Activities Done

- DiLSeY (Digital Literacy to Secure Youth), Cybercrimes awareness sessions conducted to over 12000 Citizens

New Initiatives

- Launch of DiLSeY Batch 2 Training
- Trained 115 volunteers over two weekends
- DiLSeY Graduation ceremony of 115 volunteers
- Doordarshan Yadagiri Channel's Cybercrimes Be Alert interview with DiLSeY volunteers
- Cybercrimes Awareness Short Film Contest
- Initiation of Telangana State Police Centre of Excellence for Cyber Safety

DiLSeY - Cybercrimes Awareness Sessions

There has been a 300% increase in cyber crimes globally and India stands third among top 20 cyber crime victims (FBI report - 2020). In keeping with our goals in creating a safer nation and a safe Hyderabad to begin with, DiLSeY(Digital Literacy to Secure Youth) was conceptualized and launched on 18th January 2021 and trained over 100 volunteers from IT/ITES sectors to enable them to sensitize the youth at schools and colleges.

Batch 1 trainers have successfully conducted DiLSeY sessions for over 12000 citizens spreading awareness on Cyber Bullying, Fake News, SmartPhone Addiction, Social Engineering Crimes (Financial Frauds), Safety Tips.

Feedback has been encouraging with more than 85% of them giving 5 out of 5 for the sessions.

With successful implementation of Batch 1 and with continuous interests from various IT/ITES, Pharma and other sectors. SCSC has successfully completed DiLSeY Batch 2 training on 27th August and 3rd September 2022. This program was envisioned with enhanced cyber security training by curating and conducting periodic awareness programs for Educational Institutes, Corporates and Citizens. SCSC has trained about 115 IT/ITES employees at Infosys, Gachibowli Campus; they are ready to educate and create awareness on cyber crimes.

Topics: Positive Impact of the Internet, Cyber Bullying, Smartphone Addiction, Social Media Crimes, Financial Frauds, Fake News/Fact Checking, Digital Parenting, Digital Detox. SCSC felicitated Batch 1 volunteers for their active participation.

Trainers:

Mr. Rakesh Dubbudu, Founder - Factly

Mr. Sunil Kumar, DiLSeY Volunteer (Batch 1)

Mr. Praveen Tangella, ISACA

Mr. Kalmeshwar Shingenavar, IPS., DCP - Crimes

Ms. Ritiraj, IPS., ADCP - Cybercrimes

Mr. Abhishek Kumar, Director - Microsoft

Mr. Tarak Raman, DiLSeY Volunteer (Batch 1)

Mr. Ashwin Reddy, Consulting Legal Counsel, Cyberabad Police & SCSC

Doordarshan Yadagiri Cybercrimes - Be Alert interview with DiLSeY Volunteers

Forums new initiative, Doordarshan Yadagiri Cybercrimes - Be Alert interview program with DiLSeY Volunteers has been successfully launched on 19th February 2022. This initiative is aimed at spreading cybercrimes awareness across Telangana and other states via media.

ANNOUNCEMENT OF TOP 3 AND CONSOLATION PRIZES

Centre of Excellence for Cyber Safety

The demand for Cyber Security related services is increasing from all industries and sectors like Healthcare, Pharma, manufacturing etc., The demand for enhanced maturity related to adoption of technologies, techniques, etc., has been experienced more from the Banking and Financial services sector. Hence, Cyber Security and Safety were identified as one of the core pillars of SCSC and Cyberabad Police which will contribute to achieve the vision of Centre of Excellence for Cyber Safety.

SCSC and Cyberabad Police have jointly started a mission to establish a Cyber security Centre of Excellence to create cyber friendly ecosystem for enterprises, citizens with the support of academia and industry tycoons across the globe and to quickly address the cyber threats, promote cyber awareness across segments of society, boost the confidence levels of industries and promote cyber crime reporting in Telangana.

Vision:

To create a cyber safe ecosystem for the State of Telangana.

Mission:

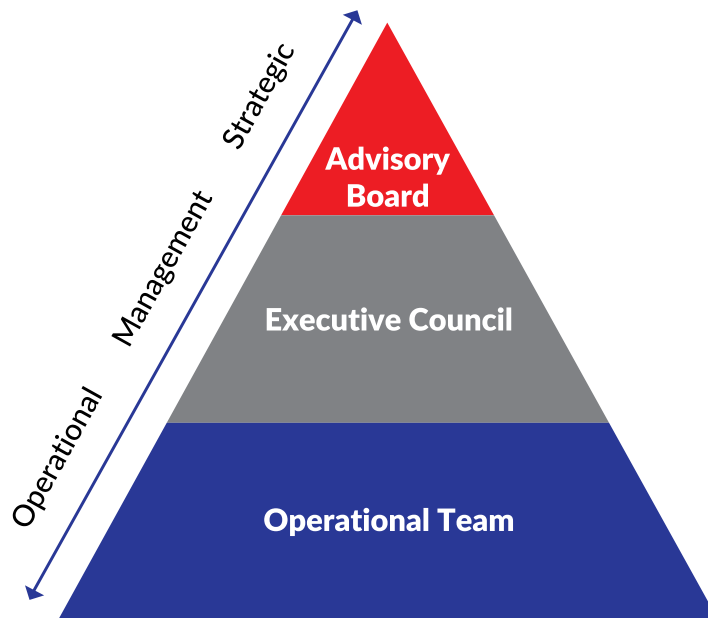

Industry led initiative in partnership with Police (PPP), as a trusted partner to citizens, industry and academia, for mitigating cyber security incidents and frauds, by leveraging technology, setting up processes, building capacity, spreading awareness, thereby complementing cyber security initiatives of Govt. and act as a platform for all stakeholders to collaborate.

The Centre of Excellence for Cyber Safety is an industry led for proactive policing of cyber and emerging crimes and it has following building blocks.

1. Security Operations Centre (SOC)
2. Standardization & Policy Advocacy
3. Citizen & Enterprise Security Posture

A group of students in school uniforms are protesting on a street. They are holding up various signs, including one that says "FAST DRIVE COULD BE LAST DRIVE". In the background, there are traffic signs and a building with a sign that says "SWAPNA".

TRAFFIC FORUM

TRAFFIC FORUM

Since the onslaught of Covid-19, Traffic Safety Forum's activities have taken a back seat, primarily due to most of the employees moved to Work from Home and till as recently as June 2022, not much of a visible traffic in the IT Corridor. Since then, gradually, the traffic is returning to normalcy and now it is almost reached the pre-covid levels.

Best Traffic Volunteers were Felicitated on 25th August 2022

To reward the best traffic volunteers who have been continuously supporting the Traffic police to regulate the traffic, SCSC & Cyberabad Police Commissionerate, together have felicitated the Best traffic volunteers who have been supporting Cyberabad Traffic Police, during the months of April, May, June & July months.

SCSC, along with Traffic Police have introduced the concept of Traffic Volunteers in the year 2013 with the volunteers enrolled from the IT Industry, to support the traffic police for controlling the ever growing traffic in the IT corridor. Gradually, we have volunteers from Pharma and Health Sciences, and other industries including Self employed youth and citizens joining in from various walks of life to do their bit for the busy traffic junctions of Cyberabad.

Mr Krishna Yedula, Secretary General, SCSC said during the event - "SCSC has taken several successful initiatives since 2006 for the safety and security of the IT industry and the Traffic Volunteers is one of the first few initiatives taken up by SCSC, way back in 2013 – What has started off as a trickle then, now it has become a regular activity of SCSC Traffic Forum. Initially, these traffic volunteers used to support Traffic police only during regular traffic hours and now I am happy to share that they became a regular volunteer force for any kind of drive by Cyberabad Police – that includes supporting the traffic police during Drunken drives on weekends, capturing violations by motorists on a regular basis & being a good Samaritan for accident victims". It is a tough job, but SCSC truly appreciates our traffic volunteers passion and commitment towards traffic safety and hope to have more and more people from all walks of life joining as volunteers". We are rewarding, 5 types of volunteers, who have contributed for the following causes between 1st April to 31st July 2022.

- A) Traffic Volunteers, who regularly support the traffic police during the working hours and among them best performers, by virtue of no. of hours contributed.
- B) Second category of volunteers, who support traffic police during drunken drives.
- C) Volunteers who keep capturing the traffic violations regularly from their cameras and post it to traffic police, which helps them to raise challans.

- D) Traffic Volunteers who support Traffic police during any kind of accident situations and helping the accident victims (Good Samaritan Program).
- E) This is the recent phenomena of some of the IT parks sending their security guards, to regulate the traffic during peak hours.

Addressing the gathering, DCP T Srinivasa Rao, IPS said that “Traffic volunteers is a good concept and I was quiet impressed with some of the work done by the Traffic Volunteers, on a regular basis, with passion. I understand that pre-covid days the participation was very high and I see it is picking up again. I urge people from all walks of life, like housewives, students, employees working in various companies to come and support this unique initiative. To appreciate, what traffic police does on a daily basis, if a common man can understand and appreciate, that would be first part of playing a responsible citizen role on road. And secondly, even if they spend , as minimum as 1 hour a month, they can educate 10 more friends or families / relatives known to them about traffic discipline”

Commissioner of Police, Mr Stephen Raveendra IPS said “The traffic volunteer initiative taken up by SCSC and our Traffic police has stood the test of time – it is very heartening to know that it has been operational since 2013 and the need of the hour is scalability to much larger numbers so that it would become a regular force to reckon with and grow. Our Traffic police is committed to train the volunteers and make this force a large one”.

Good Samaritan & Their contributions

Good Samaritans

1. A couple met with an accident after they skid from their two wheeler @ Kompally Bollaram Road Army area. Volunteer Raju called Ambulance and dialled 100 to save the accident victim. Kudos for being a good Samaritan
2. Murali Krishna saved a Drunk Person's life from a bus when he was crossing the road at Suchitra in a drunken stage. He made him sit for sometime and gave him water and informed the Traffic Police officer on duty Traffic Volunteers are back to action helping to clear traffic at busy junctions. They also helped Traffic Police in Traffic and Pedestrian Management and for the smooth movement of CM Convoy.

A summary of all activities of Traffic Forum are detailed out below.

9AM - 1PM	PC Srikanth & PC Shiva Kumar from Madhapur Traffic TTI.	100

A large, diverse group of people, including men and women of various ages, are posed for a group photo. They are dressed in a mix of formal and casual attire. In the foreground, a man in a white police uniform stands on the left, and a woman in a patterned sari stands next to him. Other individuals are holding documents or banners, some of which have 'IDBI BANK' and 'TEAM' visible on them. The background is a plain, light-colored wall.

SAFETY AND SECURITY FORUM

SAFETY AND SECURITY FORUM

Security Heads Meeting was conducted on the 31st of March 2022.

CREDENTIAL APP was launched during this APP. Mr.Venkata Dinakar, Jt.Secretary of Safety & Security Forum, SCSC and Ms.Shilpavalli, DCP Madhapur explained the usage and benefits of the software Application to the participants present.

Mr Dinakar gave a background about why this was needed in the first place and how the software tool would benefit member organizations of SCSC. .

- a) When any of the outsourced staff of the agencies either from Security or house keeping or catering or gardening area, if they commit any mistake or crime, companies can't take any action on the errred outsourced staff, as the person is not on their roles and the onus is on the vendor agency to take any action, apart from barring that person to enter their office. Very unlikely, even the agency would do any legal action or lodge a police complaint.
- b) Any of the erring employees of the outsourced agency staff, - whether they are from the security back ground or House keeping staff or catering staff were, at the most asked to replace the errred staff by the vendor, but the same errred staff are joining some other company through some other vendor - and this person may exhibit similar kind of mischief at the new site as well.
- c) There is no information sharing tool or knowledge sharing with all the member companies or within the agencies, about the errred staff of the vendors.
- d) This tool would be helpful for the vendor agencies to do check on this kind of errred staff based on Aadhar Card & mobile number entry - This tool would give the agencies to verify and then proceed for further recruitment.
- e) As soon as any of the erring staff does any crime or mischief act, apart from asking the vendor staff to leave the organization, the errred staff member data will be entered in a database, with a SMS message to the errred staff member that affected person's name has been entered in the database.

This would ensure that there is a transparency from the agency's side to their staff and secondly, all the other information stored in the database, would be kept absolutely confidential and the only remark that would be made is " please check further".

Currently, this is going through test run and it would be formally launched to all the member organizations shortly.

Tactical Training program was conducted after a good gap of close to 2 years and the batch has received very good response from all corporate. This is the VIII batch conducted by SCSC along with Cyberabad Police and first batch in the year 2022.

- Tactical Training Batch VIII was conducted from 25th March, 2022 through 27th March, 2022 at Cyberabad Police Commissionerate premises.
- 104 members from 25 companies from IT corridor have participated.
- Valedictory event was conducted post the training period.
- All the participants were felicitated with participation certificates from Stephen Raveendra, IPS., Commissioner of Police.
- Below are the companies who have nominated their security personnel for the Tactical Training.

Awareness on Drug Abuse

Cyberabad Police organizes awareness campaign against drugs abuse -

Anti- Drug committees formed at College level

The Covid-19 Pandemic has given rise to new issues & opportunities as well. While most of the staff have started working from home, children could not attend schools or colleges, most of the time sitting at home, has given rise to issues like Drug abuse. As they were sitting at home, felt isolated, with no social interaction, lead many people to loneliness and this has pushed youth to some undesirable habits like Drug addiction.

As most of them were confined to homes, the majority of the drug business has shifted to online - Social media groups and some of them to Dark Net.

Cyberabad Police Commissioner M.Stephen Raveendra during the month of March 2022 inaugurated the Anti-Drug Abuse Committees formed in schools and colleges of Madhapur Zone. Members of committees from 148 educational institutions were present.

Commissioner Of Police Cyberabad Shri Stephen Raveendra, IPS., has inaugurated an anti-drug awareness campaign aimed at students of various education institutes like schools and colleges for drugs free campuses. All DCPs, Students from schools and colleges have attended the event.

Commissioner Said. that the initiative was started off with increasing no. of cases involving youth and following directions of senior police officials to reach out to the public and spread awareness about the ill-effects of drugs. CP has assured that the intention is not to put students caught in this drugs menace through punitive measures, but put them on counselling, guidance, parents involvement. Only if these measures wont help, then Cyberabad Police is committed to combat illicit drugs and determined to step up the fight. The approach of the Cyberabad Police comprises awareness and strict enforcement. He said that this mission is supported by the local public and the State government alike. During the campaign, they will use multiple posters and messages and these were shared to the public.

Anti Drugs committees with different stake holders are formed to eradicate the drugs menace. In each college Committee Principal, 1Teacher, 1Student, 1 Parent, 1 Counsellor, 1 Non faculty member will be there. Once this committee comes across any drug abuse, will identify them, take the help of counsellors & parents, put them on to counselling and inform police when necessary. .

With an aim of bringing in more awareness against drug abuse and to dissuade people from using ganja and other drugs, the Cyberabad Police on a continous basis, would organise awareness programmes in Cyberabad, he added. He said there is a direct corelation between drugs abuse and crime rate.

Drug addiction & Wide Ranging implications.

Police across the Cyberabad Police Commissionerate started creating roadside awareness programmes. With the participation of the community, police have organised various roadside awareness programmes. Every alternate day, Police are visiting localities in their jurisdiction and conducting the programme to wane away youth from bad habits. Carrying placards with message of effects of drug abuse, a few policemen and women visit the colonies and important junctions where they stand for a few minutes to drive the message. Wherever possible, local colony association members are being invited to participate. The aim is to bring in a change through our campaigns. Also we are informing the people of legal implications if they are caught with drugs.

Madhapur DCP Shilpavalli also said that this campaign will be spread to all across IT Corridor to all the IT & ITeS campuses, ITparks etc and idea is to ensure that youth are weaned away from the drugs completely.

The first short film contest on drug abuse

The first short film contest on drug abuse was conducted during the month of April & on 23rd July, SCSC & Cyberabad Police Commissionerate, together have felicitated the winners of the Short Film contest on Drug Abuse. This Contest was conducted by SCSC along with Cyberabad Police Commissionerate, with a view to create an awareness among all sections of society, on the growing menace of drug abuse afflicting various sections of the society. Many young people responded to the theme and participated using their creativity.

Addressing the gathering, DCP Kalmesh Shingenawar, IPS said that “instead of preaching about Drug Abuse among all sections of society, this is an innovative way of attracting a story, wit and humour, which will attract the attention of all the sections of the society and I am happy to see the enthusiasm of the public in this initiative.”

Mr Krishna Yedula, Secretary General, SCSC said “ SCSC has taken several initiatives since 2006 for the safety and security of the IT industry and the society. In order to create awareness, on drug abuse, SCSC has decided to conduct this contest and spread the message through short films in social media, public spaces like theatres, malls, schools, colleges etc. We are very happy for the kind of response we have received and more than 70 videos have been submitted. The selection took place through a qualified Jury members consisting of multiple senior police officials, a psychologist and security heads of few multinational companies.”

Joint **Commissioner of Police, Mr Avinash Mohanty IPS** said “Today YouTubers are more famous than anyone else and this medium has broken all barriers of expressing creativity at a fraction of cost compared to conventional costs and the message goes to a large section of the society. I am very happy to see such a good response for this initiative. I thank all the participants who have come forward and created very informative and creative videos”.

The winners and titles were:

1. I am not Alone - Maasala Sarath Chandra
2. Hell and Heaven – Orion IT Park Team
3. C/o Dustbin – Bandari Arun Kumar

Ten consolation prizes were awarded and participation certificates were given to all the participants.

Winners & Participants of 1st Short Film Contest on Drug Abuse

A large group of women are posed for a group photo outdoors. They are arranged in several rows, with some sitting on the ground in the front and others standing behind them. Many of the women are wearing face masks. In the background, there is a building with a corrugated metal roof and some trees. The image is overlaid with a semi-transparent white banner that contains the title "WOMEN'S FORUM".

WOMEN'S FORUM

Sanghamitra - A new initiative to reach out to communities

The COVID outbreak confined people to homes, so women who are subjected to domestic violence can find a friend in "Sanghamitra". Sanghamitra will bridge the gap between victim and the police.

Women and children safety are the top most priority of the Telangana State govt. and the Telangana Police. Cyberabad Police are constantly looking for ways to offer help and service to women and children.

Due to work from home some women who are working from home are subjected to domestic abuse, cyber frauds etc. The main objective is Sanghamitra is to help women who are in need of any support from the available ecosystem.

Brief about Margadarshak & Sanghamitra program :

Violence against women is a pervasive problem across the world, occurring in every culture and social group and its magnitude and effects are often multifold. It has devastating physical, emotional, financial and social effect on the person in distress, families and communities. Majority of cases of violence against women are never reported and often hidden from view because of the social stigma and the lack of a supportive environment.

To end the cycle of violence against women, Society for Cyberabad Security Council (SCSC) and Cyberabad Police initiated the **Margadarshak & Sanghamitra** Programmes where volunteers are trained to help victims of violence and people in distress. These volunteers will be the first responders to those who are seeking help.

Knowledge sharing sessions : Aug 2022

In Aug 2022 a refresher knowledge sharing program was conducted to Margadarshaks and Sanghamitras to give latest updates in women safety and awareness on various laws.

By knowing 40 % calls of the Dial 100 are related to women facing domestic violence and cases pertaining to crime against women received through. In these challenging times, distressed woman needs a friend, another woman who stands up for her. Sanghamitra will help providing safe environment for women.

Sanghamitra is similar to Margadarshak initiative. It will act as a bridge between Women, Police and law enforcing agencies. 'Sanghamitra' is a unique model and not found anywhere. It is an initiative to reach help in timely and appropriate manner where required. It is an attempt to empower women to take their place in the society as equals.

Sangha of 'Sanghamitra' means community and Mitra, a friend. As the name suggests, it is a friend, who has been equipped with information and knowledge about the various aspects of the law, of redressal mechanism, process and procedures of seeking professional help. And has access to resources to help someone from their community 'sangh' in time of need/distress. She/he will act as the bridge between the community members and the Police as well as the various resources such as help lines, shelter homes, counsellors and others.

- The 'Sanghamitra' program is an;
- Effort to create awareness about the various avenues of help which are available for a victim.
- A structured approach to bust some of the myths about Police and Policing.
- An initiative to have help reach in a timely and appropriate manner where required.
- An attempt to empower women to take their place in the society as equals.
- A bridge between problems and solutions.
- A step towards building a better societal fabric.

It is an initiative of SCSC Women's Forum. It will be focusing on women's safety, as a part of a larger outreach effort to connect with residential communities with the objective of creating awareness about the various citizen friendly programs and initiatives of the Police.

When it comes to safety of women, one of the most important aspects is to ensure safe mobility and last mile connectivity for women in the workforce, SHE Shuttle, a unique, one-of-its-kind initiative launched more than 5 years ago, cater to this aspect wonderfully well. The shuttles are funded by the Govt of Telangana and operating expenses are covered by way of CSR sponsorships by companies.

Equipped with a well monitored surveillance system coupled with CCTVs , a woman security guard, and Reach Safe - a mobile app with a panic button for every passenger, this smart transport system operates in loops. The GPS tracking in the App enables the commuter to ensure minimum wait time and thus better safety on the road.

There are currently 8 SHE Shuttle services operating in the Cyberabad

Freedom Rides...

Cyberabad Police, SCSC and HCG conducts a Patriotic ride on 14th August 2022

To Celebrate India's 75th Independence Day, HCG (Hyderabad Cyclists Group) and SCSC (Society for Cyber Security Council) have organized HCG SCSC Patriotic Ride, a 100KM Cycle Ride in a 2x2 formation with Indian flags mounted to the Cycles and dedicate this ride to the country. The purpose of the event is to promote cycling and patriotism. The Event took place on 14th August 2022, with 360 participants.

Sri Srinivasa Rao garu DCP Traffic Cyberabad flagged off the Patriotic Ride at Decathlon Kompally along with Shilpavali, DCP, Sri Krishna Yedula garu Vice Chairman of SCSC, Sri KP Vivekananda Garu MLA Quthbullapur, Sri Marri Laxman Reddy Garu Chairman MLR Group of Institutions and HPCL Team.

The Event was successful with enthusiastic participants from different age groups including School Kids (7 children below 15 years), Senior Citizens(60+ and 70+), Students, Professionals and Armed Forces. Riders from different cities like Bangalore, Vijayawada and Warangal had shown a lot of enthusiasm towards the ride.

The event was conducted in association with SCSC, Cyberabad Police, and supported by RED FM, HPCL, AIG Hospitals, Decathlon and ODP Studios. Cyberabad Traffic Police gave immense support for all the riders during the entire course of the event. AIG Hospitals supported the ride with Ambulance and Paramedics, Decathlon Supported with Venue, RED FM was exclusive radio partner, HPCL was Hydration partner and ODP Studioz broadcasted the event live.

With a ride never conducted before by another Cycling Group and with a massive success of the HCG SCSC Patriotic Ride, HCG aims for a LIMCA Book of Record. HCG and SCSC together looking forward to promote cycling in the city with many more interesting and engaging events in the future.

On 13th August, Freedom ride is flagged off by Cyberabad Police Commissioner

As part of 75 years of independence celebrations, on 6th day of the celebrations, Mr Stephen Raveendra & his entire top brass have participated in the bike rally with around 500+ enthusiasts, the rally went on for around 25 kms, started off at Durgam Cheruvu cable bridge, covered most of the important junctions of IT Corridor till Gachibowli Stadium.

All along the rally route, 1000s people were seen actively cheering the rally, waving of the Indian flags and saluting the rally as a support to them.

At the ending point, near the Gachibowli stadium, the Commissioner has released 100s of tri colour balloons into the air along with top brass of the Commissionerate and the participating rally bikers.

In this bike rally, Cyberabad Police Joint Commissioner Avinash Mohanthy, IPS, DCP Traffic T Srinivasa Rao, IPS, Madhapur DCP Shilpavalli, Traffic ADCP Srinivas Reddy, Several ACPs, SCSC Secretary General Krishna Yedula have participated along with various inspectors and other public.

On 11th August, 4 K run organised by Govt of Telangana, GHMC, Cyberabad Police & SCSC from Hi-tex Kaman to Bio-Diversity at Madhapur

To commemorate India's 75th year of independence (75va Swatantra Vajrothsavaalu), GHMC, Cyberabad Police, Government of Telangana have organized a Freedom run today from Hi-Tex Kaman, near Shilparamam, via Tech Mahindra campus, DELL, HSBC, Lemon Tree, IKEA and ended at Bio-diversity junction. The event was flagged off by GHMC Zonal Commissioner, Serilingampally, Madhapur DCP Shilpavally, Mr Nikhil, Cine actor & Mr Krishna Yedula. First 3 winners of this run were felicitated with a mementos & rest of them were felicitated with medals, for all the people who have completed the run.

Cine actor Nikhil was part of this run and cheered the runners. More than 760 people have participated in the run and the run ended at Bio-diversity park. All the participants were served with breakfast & fruit juice.

Freedom Run 4K - 11th August 2022

Organized jointly by GHMC, Cyberabad Police and SCSC tomorrow from Hitex Metal Charminar to Bio Diversity Jn.

Cyberabad Police, SCSC and HCG conducts a Patriotic Ride on 14th August 2022

To Celebrate India's 75th Independence Day, HCG (Hyderabad Cyclists Group) and SCSC (Society for Cyber Security Council) came forward in organising HCG SCSC Patriotic Ride, a 110KM Cycle Ride in a 2x2 formation with Indian flags mounted to the Cycles and dedicate this ride to the country. 16th August Mass singing of National anthem was organised at all important traffic junction of Cyberabad Police Commissionerate

As part of 75 years of Independence, Telangana Government has organized along with Cyberabad police & GHMC, mass singing of National Anthem at various important junctions of Cyberabad commissionerate limits.

One such large event was organized at WIPRO junction, more than 4000 personnel have participated - where almost all the IT companies located from nearby areas of WIPRO junction have participated in huge nos in the event - ICICI Bank, Infosys, Phoenix, ISB, Microsoft, Kapil Properties, Mantri Celestia have participated in the singing event. The Military Band from Dogra Regiment played various songs on the eve with their band and it was a huge hit among the attendees.

Local MLA Sri Arekapudi Gandhi, Mr KRishna Yedula, Commissioner of Police M Stephen Raveendra, DCP Traffic T Srinivasa Rao, IPS & Ms Shilpavally, ACP Traffic Hanumantha Rao besides 100s police team members have participated in the event.

Educational support to Covid Orphans, who have lost both their parents due to Covid-19

During the month of June - 22, these orphans were awarded the cheques to further their education and during the cheques handover, even the schools where they were studying were also present along with officials of Women & Child welfare, Govt of Telangana. Around 4.5 lakhs worth of school fee has been paid to them.

SCSC and Cyberabad Police have collaborated with Dept. of Women & Child Welfare, Govt of Telangana to support the Educational needs for Covid Orphans

Over 200 students across Telangana State have lost both parents and their future has become uncertain. Thanks to the Govt of Telangana, Dept of Women & Child Welfare, SCSC, and Cyberabad Police, their educational needs are being taken care of until they complete Class Ten

SCSC (Society for Cyberabad Security Council), Cyberabad Police together in Collaboration with Dept of Women & Child Welfare, Govt of Telangana pledges to support the Educational needs for Covid Orphans who lost both parents during the pandemic.

These kids have lost their parents due to Covid in the pandemic and their future seems to be bleak and there is no support available to continue their education. While most of the students are being taken care of by the Dept of Women & Child Welfare, Govt of Telangana by accommodating them in various Residential Government Schools located in Districts.

There are 40 orphans in four Districts—Hyderabad, Ranga Reddy, Sanga Reddy, and Medchal. And most of them are studying in private schools. Seventeen orphans were awarded these cheques during the last year and this year the number is 10 kids, as balance kids have completed their Plus 2 / Intermediate during the year.

SCSC has been extending support to these four districts in collaboration with the Dept of Women & Child Welfare, since 2020-21. Speaking on the occasion, Sri Stephen Raveendra, IPS., CP, Cyberabad appreciated the gesture by SCSC in complementing the efforts of the Government and supporting the financial needs towards the education of these orphans. He also mentioned that the orphans and their family members can reach out to SCSC for any further help they would need in the future.

Mr. Krishna Yedula, General Secretary of SCSC said that SCSC has always been at the forefront to drive unique initiatives for the benefit of the larger society and that it has delivered many such initiatives during the pandemic. He further added that the decision to support the educational needs of orphan children has been the most satisfying one. This support will go a long way in helping these children to grow into responsible citizens and help in nation-building.

Support to Health Care

Sri Syed Ali Murtaza Rizvi, IAS, Secretary, Health, Medical & FW, Govt of Telangana addressed SCSC Members and Leaders from IT Industry on Health&Safety Precautions as companies gear up to open their gates for Return to Office. A play book for Return to workspaces was released on the occasion.

Telangana has witnessed a steep decline of Covid 19 cases and transmission levels are under control over the last few months and now the IT industry is getting prepared to reopen the gates to all their employees to return to office, in a phased manner.

Keeping this in mind, SCSC organized an interaction session with Sri Syed Ali Murtaza Rizvi, IAS, Secretary Department of Health, Medical; Family Welfare for the benefit of IT Industry at Cyberabad Police Commissioner's office, along with Dr Srinivas Gadala, Director of Public Health and Cyberabad Police Commissioner, Mr Stephen Raveendra IPS.

Speaking on the occasion Sri Syed Ali Murtaza Rizvi, IAS, Secretary Department of Health, Medical & Family welfare said "all through the pandemic, while taking all covid precautions, government employees have worked in physical work spaces in offices to render services. The same can be replicated very well across the IT industry and there is nothing to worry. He said innovation & collaborative efforts are the hallmark of the IT industry and this can take place very well only when people interact in person. He assured the IT industry that the government will take all measures to assist them in their endeavour to return to physical working spaces.

Dr Srinivas Rao Gadala, Director Public Health said that the government is taking all steps for vaccinating 100% of the states' eligible population by the end of December month. He allayed fears of the industry about spread of Omicron and said that though there are reports of this variant spreading faster, it is also reported that the symptoms are milder. He said the government is closely monitoring the Omicron cases and taking all steps to prevent spread within the state. He said that infrastructure in government hospitals has improved tremendously. Answering a query, he said there is no thought of imposing lockdowns and situation will be under control with all measures taken by government. Addressing a query from the industry, he said that precautions for Omicron continue to remain the same, viz., 100% vaccination, masking and physical distancing.

Mr Stephen Raveendra mentioned that police is more than geared up for the full reopening of the IT industry and he said that he wanted the IT industry to interact with Secretary Health, so that whatever questions they have in mind, they can talk to them – not only now, but hence forth too.

Mr Shashi Reddy, Director Qualcomm handed over 10 Ambulances to health department today and speaking on the occasion he said that Qualcomm, as part of its CSR activities, donated these 10 ambulances to health department. He said that all the senior management at Qualcomm has already started working from office and expecting other employees to return to office shortly.

Speaking on the occasion Mr Krishna Yedula, General Secretary SCSC said that IT industry was in fore front in helping the health care industry by pitching in help on various fronts and the industry has generously pitched in with beds, oxygen concentrators etc. Most of the IT / ITES companies have already gave the option of return to office to all its employees, however, it is purely voluntary from the employees side. What we hear from the IT Industry is that good percentage of employees want to return to office. More than 100 representatives from various companies have participated in this session today. He thanked Mr Shashi Reddy, Director Qualcomm for donating 10 Ambulances to health department to be deployed for public use. Mr Krishna thanked Veni Rao Foundation, Chirec School management for donating a bus to be used as Mobile Clinic and SCSC on its part has made all changes inside the bus to accommodate 3 beds with oxygen concentrators and other required items inside.

Mr Amarnath spoke about how the IT industry in Telangana has achieved the distinction of fastest growth rate across the country and it is even more vibrant than ever.

An Interactive session on Impersonation frauds during hiring with IT Industry HR Heads : on 22nd July 2022

HR in the Digital world has been proactively adopting technology for most of their processes- from Hiring to onboarding to assessments to Background verification and conducting interviews.

This facilitated speedy turn around and helped a lot of processes to go online, helped organizations cut costs and improved the productivity of HR. With every opportunity of change and process improvement, there comes challenges-one of them being, impersonation in the talent acquisition process, bringing discredit to the process and organization paying a cost to this kind of integrity issues.

We, at SCSC, have taken proactive steps in the past for handling many issues concerning the industry would like to invite you for an interactive session with the Cyberabad Police commissionerate.

We would like to thank all the CXO & HR Heads who could make it despite heavy rains on 22nd July, for the interactive session on **Impersonation in hiring process**, at Cyberabad Commissionerate. Industry representatives expressed that this trend has grown to higher levels due to the Pandemic & after that - they had to rely on technology for screening candidates and this has given a rise to this menace and each one of them have shared the kinds of frauds that are taking place.

Addressing the gathering, DCP Kalmesh Shingenawar said that impersonation comes under cyber crime and it is high time that companies start addressing this issue and start bringing this to the cyber police.

Mr Krishna Yedula, Secretary General, SCSC said that SCSC has taken several initiatives since 2006 for the safety and security of the IT industry and SCSC is happy to join hands with Hysea & Nasscom to address the growing menace of fraudulent methods of seeking job in IT industry at various levels.

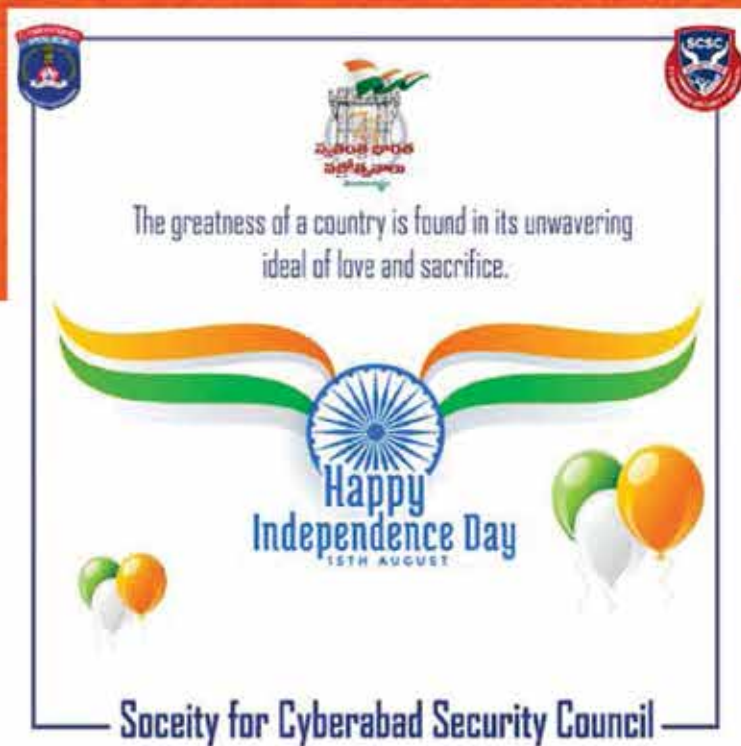

Ms Manisha Saboo, President Hysea said that Hyderabad city has an excellent eco system of police support and she is glad that another proactive step has been taken up by SCSC along with Cyberabad Police.

Addressing the occasion, **Commissioner of Police, Mr Stephen Raveendra** said fraudulent methods like impersonation, fake profiles etc adopted by the job seekers is worse than virus and this is spreading due to the industry's reluctance even to acknowledge the problem and seek the support of police. He said that the issues raised by the industry are serious crimes and come under section 419, 66 A & D of IT act & also section 420 of IPC. Suggested that

the industry should come forward and complain, so that the police can create a database of these fraudsters, see the pattern and find out whether there is an organised hand behind this kind of menace, so that if the big hands are caught, then it would see a reversal of this trend. He suggested that the industry should think it over and come back with a solid action plan and police are available to extend every support they require.

Further, a note capturing the types of impersonation issues happening, methods, causes and probable solutions is appended herewith for the benefit of our members. As conveyed in the meeting, corporates may report these incidents to Cyberabad Police either directly or through your hiring consultants. Alternatively, you may share the details of fraudulent candidates to Cyberabad Police through SCSC by sending an email to report.issues@scsc.in so that an analysis can be carried out by Police.

Healthcare with HR Heads

Human Resources, EHS and Facility Head interacted with moderator and panelists on healthcare of employees in association with Continental Hospitals.

BASIC LIFE SUPPORT TRAINING BY SCSC AND AIG HOSPITALS

The 43rd batch of Basic Life Support (BLS) was conducted on the 27th August by SCSC and AIG at the Cyberabad Police Commissionerate.

28 volunteers were trained as first responders as part of this training programme.

Few topics covered in the training were Basic Life Support, Triage, Collar Application, Active Bleeding Control (ABC), Fracture Management at site, Bandaging and splinting, Lifting and moving etc.

Traffic officials said every month about 25-30 persons die in hospitals while undergoing treatment for the injuries sustained in road accidents. This stresses the need for basic first aid including the skills and knowledge on how to observe and handle the injured at the accident site.

CORPORATE SOCIAL RESPONSIBILITY

SCSC has received CSR donations from lot of it's member companies. We have identified that TIMS Gachibowli does not have a lot of equipment necessary to run a blood bank and based on the request received from TIMS Gachibowli hospital, SCSC has supplied the following equipment - This equipment will not only help TIMS to run the blood bank effectively, but also donated equipments like Color Doppler, 2D Echo machine etc.

The below equipment worth close to value of 1.75 crores has been donated.
Microbiology and Biochemistry Lab Equipments List:
