

SCSC

ANNUAL REPORT

FOR THE PERIOD 2023-2024

Society for Cyberabad Security Council (SCSC), a joint initiative of the Cyberabad Police Commissionerate and Hyderabad's IT industry sector.

Founded in 2006, SCSC promotes safety and security in Cyberabad, attending to the needs of IT companies, and those living and working in the IT corridor.

Message from Mr Avinash Mohanty, IPS., Commissioner of Police, Cyberabad

Greetings to all,

I would like to reflect on the significant progress and impactful initiatives undertaken by the Society for Cyberabad Security Council (SCSC) during the year 2023-24. While much of this progress occurred quietly and without widespread recognition, its effects have been profound for the entire state of Telangana.

Historically, SCSC's efforts were concentrated within the Cyberabad Police Commissionerate limits. However, the launch of the LECISO (Law Enforcement Chief Information Security Officers) Council marks a significant expansion. This council, which includes CISOs from major organizations across India, represents a strategic achievement for SCSC. Their shared mission is to create a cyber-safe ecosystem for Telangana, with aspirations of eventually extending these efforts across the country. The council is tackling the critical issue of underreporting cyber-attacks, which jeopardizes information security. By establishing a system for reporting and resolving cyber incidents, they aim to address the root of these problems and ensure comprehensive solutions. This initiative also facilitates international cooperation, particularly in dealing with cross-border cyber threats, by leveraging Interpol's resources through a collaborative approach between law enforcement and enterprises.

Additionally, SCSC has made remarkable strides in raising awareness about key issues such as cyber crimes, road safety, and women's safety. Over the past year, SCSC and Cyberabad Police jointly conducted 234 awareness sessions, reaching and positively impacting more than 100,000 individuals. These efforts underscore SCSC's commitment to enhancing safety and security in the region. Another big initiative that is making steady progress is setting up Safety Clubs across the schools and colleges in Cyberabad.

The continuous collaboration with the Cyber Security Bureau will further strengthen the Cyber Eco system across the country.

I am very optimistic about the coming year, and I wish a continued success and collaboration between SCSC and Cyberabad Police in the coming year, benefiting the industry and society as a whole.

Message from Mr Joel Davis, IPS., Joint Commissioner of Police Hon Vice Chairman, SCSC

Greetings to all,

SCSC Traffic Forum has made significant strides in improving traffic management in Cyberabad by fostering collaboration between the industry and the Cyberabad Traffic Police.

During the year 2023-24, we convened multiple meetings with the industry leaders and got a very good insight into what the industry is expecting from SCSC & Cyberabad Traffic Police. What is heartening to note is that most of the industry leaders, who have a good view of the traffic & Traffic Police in other cities, told us that the support they have received from the Traffic Police in Hyderabad is a class apart from the other cities and what they have liked most is the connect, which the Cyberabad Traffic Police and SCSC conduct, regularly.

The positive feedback from industry leaders highlights the effectiveness of this approach, and the introduction of the Traffic Marshals initiative seems to be a promising step forward.

Traffic Marshals is an initiative from SCSC and Cyberabad Traffic Police. Traffic Marshalls are full-time employees dedicated to Traffic Regulation, supported by Industry and SCSC. They help the Traffic Police manage the key traffic bottleneck areas in Cyberabad, which in turn helps them focus on enforcing the traffic rules and regulations.

I see a great opportunity in this industry & law enforcement agency tie-up on an ongoing basis. This collaboration, which has already shown significant success, has the potential to improve traffic management in Cyberabad further.

Message from Mr. Ramesh Kaza, Secretary General

Greetings to all,

A key factor in the progress of any successful society is the effective management of safety and security. Society for Cyberabad Security Council (SCSC), one of the societies, very unique in the country, that is concentrating on this aspect of safety & security, along with Law Enforcement agency has made significant strides in promoting awareness and launching initiatives across various critical areas.

During the last year, SCSC has intensified awareness programs, focusing on crucial areas such as Cyber Safety, Women Safety, Road Safety, and Substance Abuse. These initiatives empower the community with knowledge and tools to stay safe and vigilant. The enthusiastic participation from various sectors, including schools, colleges, and corporate entities, has been particularly encouraging.

The expansion of the Telangana State Police Center of Excellence for Cyber Safety is an exciting development, aimed at further strengthening the capacity to tackle emerging challenges in cyber security. Through this initiative, the focus is on enhancing the ability to protect and secure the digital environment, ensuring a safer and more resilient cyberspace for all.

Another landmark initiative of SCSC is the launch of India's first LE CISO Council reflects a strategic vision to build a cyber-safe ecosystem for businesses and citizens alike. The Council is dedicated to fostering a secure environment by leveraging the collective expertise of the Chief Information Security Officer (CISO) community, spread across the country & Law enforcement agency. This initiative aims to provide comprehensive cyber safety support to Micro, Small, and Medium Enterprises (MSMEs) by creating a robust framework that includes sharing best practices, offering guidance on emerging threats, and facilitating access to cutting-edge security technologies.

We have strengthened the Executive Council, bringing fresh perspectives and ideas that are expected to propel SCSC to new heights. Last but not the least, I would like to thank all our member companies who have made the year 2023-24, the best year by contributing the highest amount of membership fees, since its inception.

CYBER SECURITY FORUM

JOINT SECRETARY: ABHISHEK KUMAR
CONVENOR: K. NARASIMHA, IPS., DCP-CRIMES

The demand for Cyber Security Services is intensifying across sectors like IT/ITES, healthcare, pharmaceuticals, and manufacturing, with the banking and financial sectors particularly vulnerable. This urgency is driven not only by threats to businesses but also by a significant rise in citizen-centric cybercrimes in India during 2023-24, which highlights the critical need for robust Cyber security measures.

Citizen-centric cybercrimes have surged significantly, impacting daily life across India. **Courier frauds** have increased by over 67%, with scammers posing as legitimate companies to steal sensitive information. **Investment frauds** have risen by 58%, resulting in losses exceeding ₹12,000 crores through fake online schemes. **Fake job offers** have jumped by 55%, with fraudsters impersonating recruiters, causing financial and emotional harm. **Impersonation scams** on social media and messaging apps are up by 62%, with over 1,200 cases leading to losses of more than ₹500 crores.

(Source: CERT-IN, 2023)

Ransomware attacks have surged globally by 93%, heavily targeting the financial sector, with damages expected to reach \$30 billion by 2025. **Phishing attacks** now account for over 36% of data breaches, while **supply chain attacks** have risen by 42%, impacting industries dependent on intricate vendor networks.

(Source: <https://secureframe.com/blog/cybersecurity-statistics>)

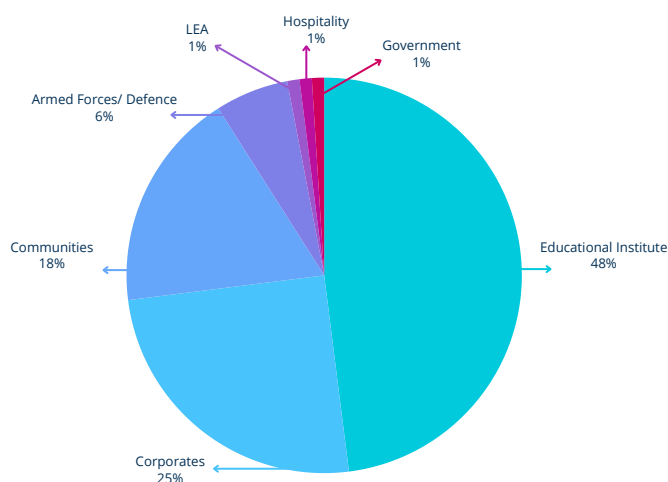

CYBER SECURITY FORUM PURPOSE AND OBJECTIVES

These alarming statistics underscore the importance of cyber security as a core pillar for both the SCSC and the Cyberabad Metropolitan Police. Their strategic focus on cyber security is essential not only for protecting businesses but also for safeguarding citizens against these pervasive threats.

The **Cyber Security Forum** plays a crucial role in this context. It serves as a vital platform for collaboration between industry leaders, cyber security experts, and law enforcement agencies. By facilitating dialogue on emerging threats like citizen-centric cybercrimes, the Forum helps develop proactive strategies and solutions. This collective effort is crucial in creating a robust cyber security framework that protects both critical information infrastructure and the broader public from the evolving landscape of cyber threats.

The Cyber Security Forum, in partnership with the Cyberabad Cybercrimes Police, has consistently prioritized its flagship initiative, DiLSeY (Digital Literacy to Secure Youth). This program has been instrumental in raising awareness about cybercrimes across a diverse range of sectors, including educational institutions, corporate environments, hospitality, aviation, the armed forces, NCC cadets, the defence sector, and construction workers. Designed to harness the enthusiasm of corporate employees and members of the Cyberabad Security Council, DiLSeY aims to promote digital safety on a broad scale.

CYBER SECURITY FORUM

PROJECT: MISSION 1 MILLION

As part of Project Mission 1 Million, SCSC has partnered with the ISC2 Hyderabad Chapter to drive impactful cyber security awareness and training initiatives. This collaboration culminated in the organization of a "Train the Trainer" program, specifically designed for volunteers from both the DiLSeY initiative and ISC2.

The program focused on equipping volunteers with comprehensive knowledge and skills across various cyber security modules, tailored to different sectors such as Educational Institutions, Corporates, Defence, and others.

The training sessions were meticulously designed to empower the volunteers with the tools and strategies needed to effectively disseminate cyber security awareness and best practices within their respective domains. By targeting diverse sectors, the program ensured a broad reach and a deep impact, aligning with the overarching goal of Project Mission 1 Million.

Following the training, a felicitation ceremony was held to recognize and honour the most active and dedicated volunteers who contributed significantly to the program's success. The event was graced by the presence of the Chief Guest Sri. K. Narasimha, IPS., Deputy Commissioner of Police (Crimes). The DCP's participation underscored the importance of community involvement and the critical role that trained volunteers play in enhancing cyber security awareness across various sectors.

This initiative not only strengthened the collaboration between SCSC and ISC2 Hyderabad Chapter but also reinforced the commitment to fostering a safer digital environment through education and proactive engagement.

TESTIMONIALS

The impact of our initiatives has been particularly noted in the way they have resonated with both students and professionals, fostering a greater understanding of cyber threats and the necessary precautions to mitigate them. The testimonials we have received reflect the value and relevance of our programs, reinforcing our commitment to continue advancing cyber security awareness.

Below are a few testimonials that capture the essence of the positive feedback we've received, though these examples represent only a fraction of the widespread support and appreciation from our participants and partners:

This affirmation from our stakeholders serves as a powerful motivator for the Cyber Security Forum to continue its mission of educating and empowering individuals and organizations in the fight against cybercrime.

CYBER SECURITY FORUM

TELANGANA STATE POLICE CENTRE OF EXCELLENCE FOR CYBER SAFETY (TSPCC)

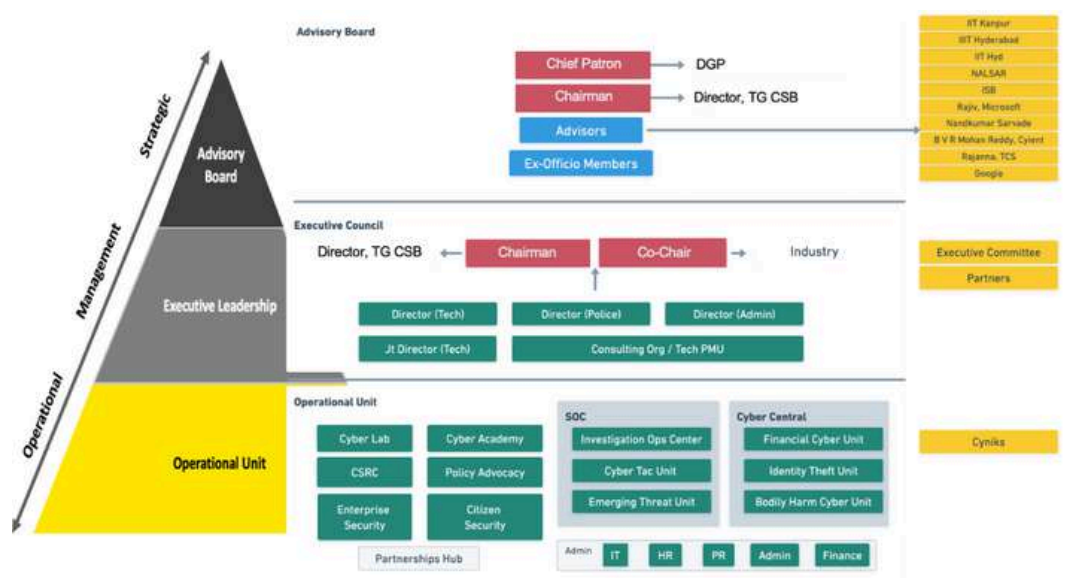

SCSC and Cyberabad Police Commissionerate have jointly started a mission to establish a Centre of Excellence for Cyber Safety, to create a cyber friendly ecosystem for industries, citizens with the support of academia and leading industry tycoons across the country and to quickly address the cyber threats, promote cyber awareness across segments of society, boost the confidence levels of industries and promote cybercrime reporting in Telangana.

Vision:

To secure the cyber ecosystem for the state of Telangana.

Mission:

Industry led initiative in partnership with Police (PPP), as a trusted partner to citizens, industry, and academia, for mitigating cyber security incidents and frauds, by leveraging technology, setting up processes, building capacity, spreading awareness, to strengthen the legal framework, by complementing cyber security initiatives of Government and to serve as a collaborative and continuous innovation platform for – Field practitioners, Industry experts, Thought leaders, Researchers etc.

TSPCC Governance Structure

CYBER SECURITY FORUM

CISO COUNCIL:

India's first law enforcement Chief Information Security Officers' (CISO) council was launched by DGP Anjani Kumar and Principal Secretary Jayesh Ranjan at the Cyberabad Police Commissionerate on 7th October 2023. The CISO council will partner with public and private institutions to tackle cyber security threat in real time. The State police, with the support of industry and academia, launched the CISO council, in the presence of Hon. Chairman and Commissioner of Police, Stephen Raveendra, IPS., and Secretary General for Society for Cyberabad Security Council (SCSC) Ramesh Kaza.

SCSC brings together the expertise of security leaders from the industry and the investigative capabilities of law enforcement to combat cyber threats effectively. Through enhanced collaboration, real-time intelligence sharing, improved incident response, and legal partnerships, organizations can strengthen their cyber security posture and mitigate the risks posed by cybercriminals. By influencing policy development and fostering professional growth, this initiative will play a vital role in creating a secure digital environment for organizations and society.

Vision:

To create cybersafe ecosystem for the State of Telangana

Mission:

Create a secure environment for businesses and citizens by leveraging the collective expertise of the CISO community and the technology partner eco-system.

Key Objectives:

Enhance Cyber Security Hygiene & Resilience

- Enhance the collective cyber security resilience of member organizations and the broader community by fostering collaboration, strengthening cyber security posture, sharing threat intelligence, and coordinating responses to cyber incidents.
- Focus on helping secure critical state government infrastructure to ensure services are not disrupted.

Facilitate Information Sharing & Standardization

- Develop, collate and publish tools, technologies, processes to assist organizations in securing their digital estate.
- Establish a trusted platform for member organizations to share cyber threat intelligence, best practices, and lessons learned.

Incident Response & Mitigation

- Develop and implement standardized Incident Response (IR) frameworks and procedures across member organizations to ensure consistent and effective response to cyber incidents, minimizing the impact on operations and data.
- Create an extended team of SMEs who can develop guidelines for robust IR capabilities and available for consultation when needed.

CYBER SECURITY FORUM

Influence Policy and Regulation

- Leverage the collective experience, expertise and influence to advocate for improved cyber security policies and regulations at local, regional, and national levels.

Enhance Cyber Security Awareness, Education and Competencies

- Organize training sessions, workshops, and awareness campaigns to enhance the knowledge and awareness of cyber security among its members and the broader community.
- Invest in research and training and leverage the collective knowledge to help enhance security competencies of member companies as well as LEAs.

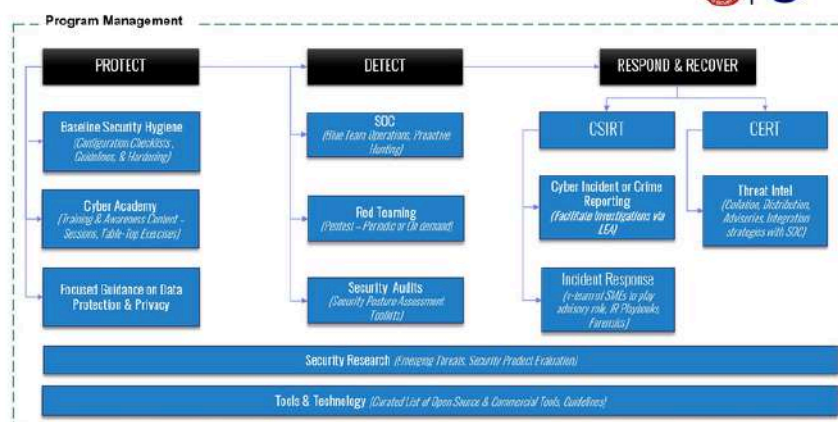

Enable Cybercrimes Investigations Support From LEAs

- Establish a mechanism whereby organizations can easily reach out to LEAs for reporting cybercrimes and take their assistance for investigations where required.

CYBER SECURITY FORUM

CISOs VISIT TO TELANGANA STATE CYBER SECURITY BUREAU (TSCSB)

A delegation of Chief Information Security Officers (CISOs) met Ms. Shikha Goel, Director of the Telangana State Cyber Security Bureau (TSCSB) on 22nd Feb 2024, to discuss the bureau's current needs and explore how the CISOs could provide strategic support. The meeting was an important step in aligning the expertise of leading cyber security professionals with the mission of the TSCSB.

During the discussion, Ms. Goel outlined the bureau's key priorities and challenges, emphasizing the need for enhanced cyber security measures to protect the state's critical infrastructure and sensitive data. The CISOs, drawing on their extensive experience in managing cyber security in various industries, engaged in a comprehensive dialogue to identify areas where they could contribute effectively.

The CISOs expressed their commitment to supporting the TSCSB's initiatives by offering their expertise in areas such as threat assessment, incident response, security audits, and awareness training. They also discussed the potential for ongoing collaboration, including the possibility of joint efforts to develop and implement advanced cyber security frameworks tailored to the specific needs of the bureau.

This meeting marked the beginning of a promising partnership aimed at strengthening the cyber security posture of the Telangana State Cyber Security Bureau, with the CISOs playing a pivotal role in providing guidance and support to meet the bureau's objectives.

TSCSB MEETING PHOTOGRAPHS

EDUCATION FORUM

The SCSC Education Forum is dedicated to fostering a safer and more aware student community through educational initiatives focused on safety and well-being. By establishing Safety Clubs and organizing events, the forum aims to empower students, parents, and educators with knowledge and skills to navigate various safety challenges.

Activities of Safety Clubs:

Throughout the past year, the SCSC Education Forum has been proactive in launching and supporting Safety Clubs in several schools, promoting a culture of vigilance and awareness among young minds. Notable initiatives include:

Safety Club Launches:

New Safety Clubs were established at Pallavi International School and Ganges Valley School, focusing on educating students about personal safety, cyber awareness, and emergency preparedness.

Drug Awareness Initiative:

At Birla Open Minds School, the forum organized a "Say NO to Drugs" event, emphasizing the dangers of substance abuse and promoting healthy lifestyle choices among students.

Addressing Privacy Concerns:

At Global Edge School, the forum intervened to address privacy concerns involving peeping toms from the neighbouring College students, ensuring the concerns of privacy and creating a safer environment for students.

Cyber Safety Education:

An informative session on women and cyber safety was conducted for high school students and parents at Gitanjali Devkul, equipping them with essential knowledge to protect themselves in the digital age.

Volunteer Mapping and Engagement:

To enhance the effectiveness of safety education, the forum mapped all volunteers to specific education zones, ensuring targeted outreach and support.

Short Film Contest on Safety:

At Gitanjali Vidyakul, Kukatpally, the forum served as a jury member for a short film contest on safety, encouraging creative expression and awareness among students.

One of the outcomes of the Safety clubs, is a POCSO Case (Protection of Children from Sexual Offences) case reported at Vidyabharti School was swiftly handled with the support of SHE Teams, demonstrating the forum's commitment to addressing serious safety concerns in educational settings.

EDUCATION FORUM

Upcoming Initiatives:

Looking ahead, the SCSC Education Forum plans to expand its impact with several key initiatives:

Increase Safety Clubs:

Efforts will be made to establish more Safety Clubs in schools, broadening the reach of safety education and fostering a proactive approach to personal and community safety.

Enhance Substance Awareness Programs:

The forum aims to increase the number of programs addressing substance abuse, providing students with the knowledge to make informed decisions and avoid harmful behaviors.

Develop Holistic Safety Programs:

New holistic programs will be introduced, covering various aspects of safety, from physical and emotional well-being to cyber security and emergency response.

Expand Volunteer Base:

By recruiting more volunteers, the forum seeks to enhance its capacity to deliver impactful safety education across different regions.

Collaborate with Young Minds and Other Agencies:

Building partnerships with youth organizations and other agencies will enable the forum to deliver more comprehensive and effective safety initiatives.

Through these ongoing and upcoming efforts, the SCSC Education Forum is committed to building a safer tomorrow by empowering students and communities with essential safety knowledge and resources.

List of Organizations Where the Women's Forum Awareness Programs Have Been Conducted

S.NO	DATE	EVENTS
01	9th May	A POCSO case was reported at School and was promptly handled by the SHE Teams.
02	11th May	Launch of Safety Club at Pallavi Intl School-
03	22nd June	Launch of Safety Club at Ganges Valley School
04	27th October	A 'Say NO to Drugs' event at Birla Open Minds, followed by a march to Kollur.
05	22nd February	Peeping Toms from the adjacent school
06	6th March	Women & Cyber Safety for Gitanjali Devkul High School students and parents
07	12th March	Mapped all Volunteer to Edu Zones
08	14th March	Gitanjali Vidyakul in Kukatpally hosted a Short Film Contest, with SCSC serving as a jury member.

SAFETY AND SECURITY FORUM

The design of the forum is conceptualized and works as the operative body of the council that diversifies the proactive strategies of the council and channelized through the events, projects/initiatives and programs that are planned quarterly. The forum created works towards fulfilling the vision statement of the council.

XI batch of the Tactical Training Program was conducted at Franklin Templeton Campus from 18th August to 20th August 2023. This 3-day intense training program was attended by Cyberabad Police Tactical Trainers.

85 Security Guards/Supervisors representing companies, such as Accenture, ADP, BOA, Dell, Deloitte, Franklin Templeton, Raheja, Meta India, Novartis, Opentext, Synchrony, Verizon, Wells Fargo & Wipro.

The Topics covered were ground circuit fitness training, self-defense, firefighting, corporate security, disarming of weapons, anti-terror, bomb detection etc.

Certificates were distributed to the participants on successful completion of program by Additional DCP Cyberabad.

SHE Shuttles

PIONEERING SAFE AND RELIABLE TRANSPORTATION FOR WOMEN IN CYBERABAD

SHE Shuttles is an initiative launched by **SCSC** to provide last-mile connectivity and a safe transport option to women working in the Cyberabad limits.

SCSC launched SHE Shuttles Bus Services in Cyberabad for women employees in the IT corridor in the Cyberabad area with two buses on **June 29, 2015**. To begin the operations, TSIIC donated two buses, and thereafter, many organizations came forward to support this initiative. The routes were planned to cover working areas and surrounding areas where several hostels are located, in addition to the majority of the IT Parks.

What started with **2 SHE Shuttles** is now **16 Shuttles** running with a monthly ridership of **1.52 lakhs**.

SHE Shuttles is a unique initiative and one of its kind in the country for the working women professionals in the IT Corridor, rolled out for transit safety. SHE Shuttles runs on all the connecting roads where there is a concentration of IT companies and IT Parks connecting Hitech City, Madhapur, Gachibowli, Kondapur, Financial District and other areas. They run from 7:30 AM to 12:00 PM & 3:30 PM to 9:00 PM. With increased demand from Pharma clusters, during the past 4 years, launched **4 SHE Shuttles** in the Pharma area & services received an overwhelming response.

SHE Shuttles are tracked to **ensure passenger safety**. The system helps the user decide when to wrap up her office work and reach the bus stop just before the bus arrives, ensuring better safety on the road.

SCSC would like to thank all our donor organizations who have been supporting the SHE Shuttle initiative.

TRAFFIC FORUM

Society For Cyberabad Security Council (SCSC) in its endeavour to make Cyberabad a world class IT destination through implementing proactive and preventative initiatives, excellence in surveillance, partnering with and educating all stakeholders and facilitate effective participation of all.

Cyberabad, which is the hub for Telangana's IT / ITES industries, also receives highest no. of 4 wheelers and 2 wheelers in the city, every day – Ferrying the employees to reach their work place and at the evening back home. With so many people using their private vehicles, traffic at times, reaches the worse levels, with a good drizzle.

Traffic Forum is an initiative primarily aimed at partnering with Cyberabad Traffic Police to foster road safety and to bring about a pleasant road atmosphere. It helps in creating awareness amongst IT employees and public on road safety measures.

Traffic Forum conducts Road Safety Awareness Sessions:

- 1) Road Safety Awareness program for IT Employees & Educational institutions – This awareness includes safe driving tips, precautions to be taken in rainy season, night driving etc
- 2) Cab & Bus Drivers Sensitization program:

Objective:

The session is aimed at bringing overall awareness on Road Safety for commuters and enrolment of traffic volunteers

- The other objective is to create awareness on car pooling.
- Duration: 1.5 Hours
- Typical flow of events for the session

Traffic Forum conducts the session including enrolment procedure for traffic volunteer's employees will be shown Real time CCTV footage of Road accidents & incidents in IT corridor or other accident-prone areas, Traffic Training Institute officers covers importance of various signage's, MVDR and road markings Cyberabad Police officials shall address the employees on real time experiences with special focus on Women Safety & Road Safety aspects

Smart Traffic Management System:

The Traffic Forum aims to address the pressing issues of traffic congestion, safety, and sustainability through collaborative efforts and innovative solutions. Our initiatives focus on:

TRAFFIC FORUM

Traffic Marshalls:

Traffic Marshalls are essential for: Ensuring smooth traffic flow, preventing accidents, reducing congestion, enhancing road user experience, supporting emergency services.

Smart Traffic Management:

Implementing intelligent transportation systems (ITS) to optimize traffic flow and reduce congestion (Drone Camera Utilisation)

Road Safety Campaigns:

Awareness events to promote & counsel the commuters for the responsible driving habits and reduce accidents.

Car Pooling Services:

By promoting car pooling, we can reduce traffic congestion, lower emissions, and enhance the overall commuting experience.

Four more Traffic Task Force Bikes were pressed in to service by SCSC to be put in use by the Cyberabad Traffic Police.

WOMEN'S FORUM

The SCSC Women's Forum is committed to empowering women by creating awareness, fostering empowerment, and enabling them to create safe spaces for themselves. Over the past year, the forum has launched several impactful initiatives aimed at enhancing the safety and well-being of women in the society.

Introduction of New Shuttle Services:

To ensure safer transportation for women, four new shuttle services were introduced, supported by companies like Vestro, ADP, and Arcesium. These shuttles provide a reliable and safe commuting option for women, reducing transportation-related risks. These are over and above the existing SHE Shuttles, taking the total services to 15 now.

Margarashak Program:

The Margarashak program completed its **13th batch**, certifying 59 individuals who are now equipped to contribute to women's safety and empowerment. Throughout the year, 50 targeted interventions were conducted under this program to provide guidance and support, reinforcing the forum's commitment to a safer environment for women. 2023-2024 had seen about **60 interventions** by our Margarashaks who have their presence in about **85 + organisations** in Hyderabad.

Sanghamitra Program:

The Sanghamitra program concluded its **3rd batch** with 13 new certified individuals. With a strong focus on community engagement, the program carried out **142 interventions**, educating and advocating for women's rights and safety within communities. We had **104 recorded interventions** last year which impacted about **104 lives**.

Safety Awareness and Self-Defense Programs:

Safety awareness remains a cornerstone of the SCSC Women's Forum's efforts. Over the past year, the forum conducted safety awareness sessions across **54 organizations**, reaching and educating **10,000 individuals** on personal safety, emergency preparedness, and resources available for women. Additionally, **self-defense programs** were held at 9 different organizations, empowering women with the skills needed to protect themselves.

Future Initiatives:

Going forward

The forum plans to continue its impactful work with several upcoming initiatives, including:

- Round Table Industry Meet on Women's Safety
- The SHE MPower Conclave 6.0,
- The launch of the upgraded SHE Safe APP.

Other planned activities include Project Safe Stay – a series of audits to ensure safe accommodations, and gender sensitization programs in schools to educate the next generation on equality and safety.

By continually expanding its range of programs and initiatives, the SCSC Women's Forum is dedicated to building a safer, more empowering environment for women everywhere.
